

PANEL DOOR SWITCHES

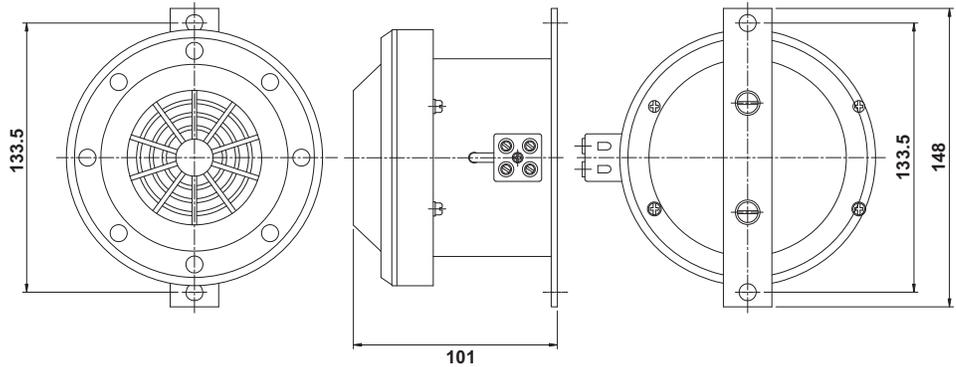

We are engaged in offering a premium quality of **Panel Door Switches** that is in accordance with the defined industry standards. These are fabricated using high grade material that is procured from authenticated vendors of the industry. Owing to quality features like durable finish, trouble free performance and longer service life, these switches are widely appreciated by the clients spread worldwide.

Technical Specifications :

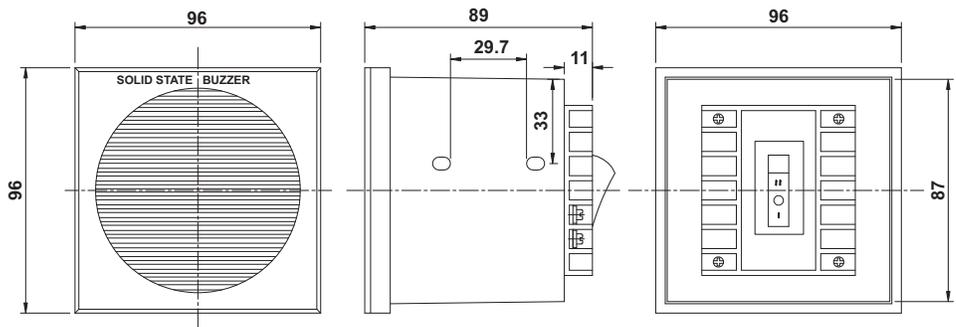

- Rating : 2 amps, 250V
- Range : 1 Pole on-off and off-on
- Housing : Thermo Plastic
- Terminals : Screw
- Types : Push to off (White) & Push to on (Black)

INDUSTRIAL HOOTER & SOLID STATE BUZZER

Technical Specifications :

- Operating Range : +10% of rated voltage
- Audio Sound Output : 100db to 120db, 50 metres
- Available Voltage : 12V, 24V, 48V, 110V, 230V AC or DC, 415V AC

- Operating Range : +10% of rated voltage
- Audio Sound Output : 100db to 120db, 50 metres
- VA Burden : 5 VA for AC and 5 Watt for DC
- Available Voltage : 12V, 24V, 48V, 110V, 230V AC or DC, 415V AC
- Panel cutout size : 96 x 96 mm
- Sound Tone : Single Tone / Multi Tone

Salient Features

- Fully solid - state shock proof device.
- Long life & low power conjunction.
- Doesn't generate radio frequency noise.
